Farrier Service

The UF Large Animal Hospital farrier works under the direction of board-certified veterinary surgeons, ensuring the highest level of podiatry care. Our farrier, Jody Schaible, is available for routine or advanced podiatry and hoof maintenance for horses.

UF uses state-of-the-art diagnostic modalities to identify and treat many conditions including:

- general hoof problems
- hoof imbalance
- quarter cracks
- abscesses
- laminitis
- fractures
- other lameness issues

"Our experience was really excellent. Communication, care, connection to the animals. Superb!"
- Laurie Tuchen, January 2011
